The office is evolving. In today's world, a successful business demands high levels of engagement and innovation.

The changing workforce, advances in technology and the need for innovation are creating environments that go beyond the traditional office space.

The office drinks brewer is no longer just a coffee maker but a place to take a break, **think, collaborate, exchange ideas** and link.

MARS DRINKS OFFICE CONNECTIONS™ supports this through a unique hot drink system that brings offices together to:

MARS DRINKS OFFICE CONNECTIONS helps offices:

INCREASE INTERACTIONS

Employees experienced more interactions with colleagues, higher levels of engagement and satisfaction, and improved productivity and morale when using our unique system*

ENHANCE PRODUCTIVITY

Without an office hot beverage system, employees leave work to get coffee resulting in a potential loss of productivity**

IMPROVE CONCENTRATION

Keeping hydrated at work helps to maintain physical and mental performance. Coffee, tea and herbal infusions are good sources of hydration, and research has shown that caffeinated drinks **do** increase hydration†
